

Downloading and Installing the Video Converter (videoconv.exe)

The best method of installing is the CD that came with the DVR. Look in the *Software* directory. Alternatively, you can download the file from: <http://bradshaw-vacuum-technology.com/videoconv.zip>. Save the files to your computer (noting the file location).

Zip Software

If you need *Zip Decompression* software, there are many alternatives. A free program is available from:

http://download.cnet.com/NX-Free-Simple-ZIP-Archiver/3640-2250_4-11675313.html.

Select  [Download Now](#).

Creating a Bookmark:

A bookmark can make repeated use of the program more convenient.

1. Right-click an open area on the desktop, point to **New**, and then click **Shortcut**.
2. Click **Browse**.
3. Locate the program or file to which you want to create a shortcut, click the program or file, click **Open**, and then click **Next**.
4. Type a name for the shortcut (H.264 Convert). If a **Finish** button appears at the bottom of the dialog box, click it. If a **Next** button appears at the bottom of the dialog box, click it, click the icon you want to use for the shortcut, and then click **Finish**.
